

I'm a UX designer at UVU with a passion for designing solutions that work for everyday people. I have experience creating intuitive, accessible interfaces and collaborating on semester-long projects with real clients. While design is my primary focus, I have declared a double-emphasis in design and development, which will help me create solutions that are as feasible as they are thoughtful.

UX Experience

UVU Bookstore Redesign

Utah Valley University8/2025 - 12/2025

- Worked on a team of 3 and collaborated on Figma.
- Started with user research to inform designs, looking for feedback whenever we hit a milestone.
- Designed at least 5 different user flows, all displayed in a polished, working Prototype

Utah Poetry Society

Utah Valley University1/2026 - 4/2026

- Kept in contact with my client and team remotely, and collaborated through Teams.
- Published a working UTSPS site, with 12 pages and created with Divi Wordpress.
- Worked under tight time constraints while keeping the product clean and professional.

SCET Web Designer

Utah Valley University8/2026 - Current

- Design & update webpages with the university CMS
- Assist in maintaining consistent branding, layout, and user experience across SCET websites
- Collaborate with departments to update program pages.

AwardCo Summer Sprints

AwardCo6/2026

- Worked on a team of 5 students from ProdUX, along with 2 AwardCo designers
- Designed a low-fidelity prototype that meets business goals
- Conducted UX research and design exercises throughout the sprint
- Designed & presented a slide deck to the AwardCo team
